CITY GOVERNMENT

THE MAYOR'S ADDRESS

"Gentlemen of the City Councils:

"My first impulse is to express to the citizens of Keene a word of thanks for the great confidence with which they summoned us to take this sacred oath of office.

"With hearts of gratitude, with an impelling feeling of thanksgiving to Almighty God we are assembled here to exercise these sacred privileges of self government which have been so securely preserved to us by our forefathers.

"The voices of a splendid people have called us here as their representatives. They bid us to see the viewpoint of a new day and when our duty is thus determined, to perform it in a spirit of valor.

"We have entered a term of service fraught with responsibilities. To these duties, a few of you bring the valuable experience of service in the councils, but we do all have the expressed trust and confidence of the citizens of our city. That trust we all must answer with loyalty, sacrifice of time, and honesty of service so that we may pass to our successors a greater and happier city.

"I urge you to keep in mind that the splendid experience and service of our city clerk is always at your command.

"It is my hope that this term may be marked by hearty cooperation on the part of both boards.

"You will be assigned to membership on the various committees in your respective bodies, and you will find an opportunity for initiative and thought. Each of you has his part to do and should meet in session on each subject referred to you and give it careful consideration. You will be called upon to elect department heads for the ensuing term, and I urge you to use care that we may have "efficiency." This is vital to a successful administration.

"Cooperation between department heads has been lacking for several years and has cost the taxpayers a large sum of money by overlapping work and expenses.

"I shall demand cooperation in all departments of the city that no unnecessary expense be added to the already over-burdened taxpayers. Let us bear in mind (this includes all departments) that we are the servants of all the people and not their masters.

WASTE MATERIAL

"A matter of some moment has come to my attention, and I will make every effort possible to stamp it out of each and every department of the city where it is carried on. This matter has to do with the selling of waste material by employes of the city and the purchasing of intoxicating liquors at the state liquor store with the proceeds and the taking of same on the job. Department heads and foreman will be held responsible for the loss of all such material and the use of intoxicating liquors on the job.

"I am not preaching temperance. I care not how much intoxicating liquors employes of the city take, but they must take it on their own time and pay for it with their own money.

EMPLOYMENT

"Our city is suffering from a scarcity of industries, and the unemployment is growing larger. Therefore, some sacrifices and effort must be made to alleviate this growing condition. I recommend that the mayor and president of the council appoint a joint committee of five members, two from the board of aldermen and three from the council, whose duties would be to make every possible effort to obtain additional industries for the city. I also recommend that a fixed sum be appropriated to pay a reasonable expense of the committee when actually so employed.

RECOMMENDATIONS

"I recommend the consolidation of the bridges and street department, water works, sewers and drains department and burial grounds department under one head to be known as the Public Works department. There may be objections to my plan, but the idea is a worthy one. It will eliminate overlapping work and expense. Several cities in our state have public works departments which are giving good satisfaction.

"I recommend there be created an office to be known as the office of the Comptroller, which shall be directly attached to the office of the mayor and shall be under the general direction, supervision and control of the finance committee. Such an office shall be in immediate charge of an officer to be known as 'comptroller' who shall be appointed by the mayor with the advice and consent of the board of aldermen. This officer to have full charge of all the finances of the city.

TAX COLLECTOR'S DEPARTMENT

"This department is in a deplorable condition. Six persons, including the collector of taxes, have been employed in the department as collectors of taxes, water rates and auditor. The department should be given a thorough overhauling. I recommend that the tax collector's department be abolished.

"I recommend that the city wood question be investigated, I believe a saving may be made by having the city workmen cut the wood and have it distributed to the homes of the city poor. Wood is now being sold by the city and the same wood purchased by departments and sent to the homes of the city poor.

AUDITOR'S DEPARTMENT

"The auditor's department has not functioned for a number of years. The condition of the tax collector's department is ample proof, as a special auditor has been employed in that department for several months. This department never reported the inefficiency and carelessness found in the tax collectors office. I call your attention to Section 2 and 3, Chapter 1, of the City Ordinances revised December 19th, 1935, and the accounting charges found on Page 39 of the 1937 City Report.

DEPARTMENTS

"I recommend that each department furnish the mayor and finance committee, on the first of each month, an itemized statement of all receipts and expenditures of the previous month, in order that the

mayor and finance committee may, at all times, have a clear understanding of the city finances.

TAXES

"One of the chief problems of this body is 'taxes', and it behooves each of us to study the budget recommended for the year so that if you deem it necessary to make any changes, they may be made without delay.

"The city borrows money in anticipation of taxes. I recommend that the tax payers be allowed to pay part of their assessed taxes each month, thereby giving the city the needed monies without the heavy loans and making it easier for the taxpayer to meet his tax.

GASOLINE AND OIL

"I suggest that three receipts be made for all gasoline and oil issued to any person or department. One for the department issuing, one for each person receiving gasoline and oil, and one to the mayor. This will keep a check on all gasoline and oil used by all persons and departments in the employment of the city.

ASSESSORS

"There is some dissatisfaction in this department, and I suggest that the matter be taken up and adjusted by the councils.

HIGHWAY DEPARTMENT

"The superintendent's report is before you. You will note that most of the work has been maintenance and as very little new construction is in sight, I suggest that the joint committee on Bridges and Streets give attention to having more gravel roads and walks oiled and tarred, thereby making more permanent roads and walks, I also call your attention to the necessity of building a walk on the west side of Island street bridge. School children and others are obliged to cross Island street at the junction of the bridge, and it is very dangerous. There is plenty of material at the incinerator yard to construct such a walk.

"You will note that the superintendent has called attention to the incinerator plant, and this will come under your jurisdiction.

PARKS

"The city parks are in good condition and are well patronized by young and old and with the program outlined by the commissioner, the city will be well supplied with recreation centers.

FIRE DEPARTMENT

"The citizens of Keene should be proud of their fire department with a record of 381 alarms during the year 1937. With a total fire loss on buildings of $15,317.32 and $19,554.33 on the contents, making a total of $34,871.65 and all covered by insurance. In behalf of the citizens of our city, I congratulate the entire department on the excellent manner in which they handled the fires during the past year. The engineers report equipment in excellent condition and recommend the purchase of 1,000 feet of fire hose, new tires on Engine No. 1, two rears on Combination No. 2 and two fire alarm boxes.

POLICE DEPARTMENT

"The police department is governed by a commission elected by the people and is far superior to a political commission appointed by the governor at the dictation of the so-called political leaders. With a committee on police from the city government, who will give cooperation to the department, efficiency will be the watchword that is so vital to any law enforcement department.

CEMETERIES

"The city accepts trust funds to care for lots in the cemeteries. Complaints have reached the office of the mayor that the lots have not received proper care. I call your attention to this neglect with the hope that the cemeteries committee will see that justice is done those who have passed on.

SEWAGE DISPOSAL SYSTEM

"The system did not function during the summer months, and the residents of the Edgewood district petitioned for relief. Sludge overflowed the beds and entered the branch, causing a very strong odor. The system is functioning better since a large quantity of lime has been used.

"Your attention is called to the report of the sewer department on the sewage disposal system found on page 97 in the City Report of 1937 and report of the health officer on Page 120.

WELFARE

"Old Age Assistance:—Public assistance for aged folks is here to stay. Of that there can be no question. Like every other large scale social enterprise, there is a perpetual problem of administration in order that the spirit of the law be carried out without infringement of the letter. The persons most concerned are 65 years old or over. Their resources are scant, and friends neither numerous or influential. That is why they ask help. We, as citizens, should familiarize ourselves with the provisions of the law which is being interpreted to include picked up on odd jobs. Already the views taken by the welfare departments of the various municipalities differ. There is always a difference in the correctness. If the high standard is maintained, if this splendid work is to go on, there must be plenty of local interest on the part of the citizens, and I call attention to the city welfare department to the fact that he is not the master of the unfortunate poor, but a servant who receives his salary from taxes paid by the poor as well as the well-to-do.

ATHLETIC FIELD AND WINTER SPORTS

"Many municipalities are furnishing athletic fields and bidding for winter sports. With the many areas in and around Keene, suitable for such sports, it should be possible to make a start, and it plays a very important part in the health of a community. I suggest that the subject be given your earnest consideration.

BONDED DEBT

Water Works,	$175,000.00
City,	108,500.00
Schools,	105,000.00
Total Bonded Debt,	$388,500.00

Total Trust Funds,	$232,997.27
City Property,	$1,380,733.00
Roxbury-Nelson-Harrisville,	55,513.00
Union School District,	749,495.00
Total,	$2,185,741.00

WATER WORKS

"Col. Paul Babbidge, superintendent of the water works department for 50 years, has signified his intention of retiring from active work. Knowing Col. Babbidge during the half century he has been at the head of the department, I would be amiss in my duty if I did not recommend that he be elected consulting engineer of the water works, sewers and drains department, and I further recommend that such an office be created during the life of Col. Paul F. Babbidge.

"The department is in excellent condition to care for any of the many needs that may be made upon it. No request or recommendations have been made by the department for any special or new work.

REPORTS

"There are several other department reports, but I will not take up your time in going over them as you will have opportunity to study each in your city report.

CONCLUSION

"The coming year, we must give our best energy to the business of the city entrusted to our care by the citizens. I urge you to give prompt attention to the business referred to your committees, to be regular in your attendance at meetings of the councils, and to assume your full share of any matter that may come before you. I will be ready at all times to meet any citizen, city official and members of the councils.

"Our greatest satisfaction will be in knowing that we have kept faith and tried to serve all the people of our city who have placed their trust in our keeping."

Mr. Claude A. Putnam,
Keene, New Hampshire.
Dear Claude:

Subject: Official State Tourist Information Booth System.

There has been an unavoidable delay in giving you a definite decision, but we are now glad we can tell you that we have included Keene in this year's list of Official State Tourist Information Booths and we shall be able to make you the same allowance as last year, namely $150. One half of this will be paid about the 15th of July and the balance late in August or early September.

We are enclosing two copies of the rules and shall appreciate your advising us that these are satisfactory and that the Keene booth will be operated in accordance with them during the coming season. One copy is for posting in the booth as required by rule No. 8.

It is understood that the booth will be operated for a period of at least ten weeks. We believe that you are in a better position than we to decide what are the best hours for the booth to be operated and shall appreciate your sending us the proposed schedule at your convenience together with the name of the operator.

Yours sincerely,

D. D. TUTTLE,
Publicity Director.

SUPERINTENDENT OF WATER WORKS, SEWERS AND DRAINS, 1888-1938

BORN AT MILFORD, ME., JAN. 17, 1858 — DIED AT KEENE, N. H., APR. 23, 1938

HIGHWAYS
WATER WORKS
SEWERS AND DRAINS

REPORT OF SUPERINTENDENT OF HIGHWAYS, WATER WORKS, SEWERS AND DRAINS

To His Honor the Mayor and Gentlemen of the City Councils:

The work of the Highway department this year has been mostly maintenance.

A walk was built on the west side of the Island street bridge to match the one on the south side. The total cost was $552.38 and much of the material used was already on hand.

We had the usual rubbish collection at a cost of $320.03.

This year we spread thirteen cars of Oil and Tar used mostly to maintain streets and roads previously treated. As usual we extended the work to some new sections as far as our money would permit.

After a lapse of several years we have again commenced the construction of cement walks. Work was done on Lamson street, the south side of Mechanic street near Court, the east side of Elm street between Cross and High streets and a section on the north side of Central Square. We have not been able to build the walks on the north side of Mechanic street, on Appian Way or on West street near Island street.

One new street, Avalon, has been accepted this year but the work has not been done as yet.

We added to our equipment this year one new truck replacing one of our old ones.

Tar walks have been resurfaced on several streets, a new gravel walk was built on the east side of Fox avenue and other gravel walks have been renewed.

After a week of rain which caused the highest water ever recorded in this section Keene suffered the worst disaster in recent years. On Sept. 21 almost without warning the high wind reached hurricane proportions about 5 p. m. and continued nearly 6 hours. The great trees of which we have been so proud were broken and uprooted carrying with them all wires and leaving the City without power or lights and with but few telephones. Streets were blocked with a tangled mass of trees, poles, wires, tin roofs and flattened automobiles. We were at once faced with the problem of rehabilitation. Three bridges were gone and others weakened, our water mains broken in two places making it necessary to patrol 60 miles of pipe line and 20 places where the pipes crossed streams which were still at flood height. We also had to inspect and shut off the water at several factory buildings where falling walls had set off the sprinklers.

The work done by our City employes under the worst possible conditions is worthy of commendation.

The prompt action of our City government and the ready cooperation of our citizens did much to help us in our work.

Since the first week the W. P. A. has assisted us by paying for most of the labor and some of the heavy equipment thus lightening the tax payers burden.

Colonel Paul F. Babbidge, Superintendent of the Water, Sewer and Drain Departments for fifty years, resigned from his office in February of this year and was elected to the office of Consulting Engineer. The present encumbent was elected to fill the vacancy.

Mr. Babbidge died April 23, 1938.

From December, 1937 to September, 1938 the W. P. A. furnished labor to the extent of $16,119.94 in making improvement on the water shed at Woodward Pond, Babbidge Reservoir, Roaring Brook and around the filters.

Last winter, 209 cords of logs were cut and yarded for the New England Box Co. to partially pay for 233 acres of land on the Roxbury Water Shed. Some 300 cords of wood were cut at the same time. Some 267 cords of this was trucked and stored in the shed at the City Dump, for the use of the Welfare Department, the balance delivered to the City Incinerator for the heating of road materials.

Total cost to the City of the above operation, for labor and material,	$3,531 06
Wood Shed cost,	632 79
The cord wood was cut for 64c per cord,	171 07

Appian Way was relayed from a 4″ Cast Iron pipe to an 8″ Cast Iron Pipe from Main Street to Hyde Street and two hydrants added.

In May, the Department received 10,000 3-year-old White Pine trees from the State of New Hampshire Nurseries. These were planted on the Roxbury Water Shed.

The Sewage Disposal Pumping Station was submerged by the flood waters, causing damage to the pump motors, heating plant, switch board, office appliances and records.

Most of the immediate damage to the Water and Sewer Departments was caused by the flood. The damage done by the hurricane was in the many small service lines to houses which were pulled up and broken up by the uprooting of trees. The water shed in Roxbury and at Goose Pond were damaged so badly by the wind that it will be quite some time until there can be any estimation of the amount of money it will represent. The damage to the Drain Department was caused by the uprooting of pipe by the trees and the washing out of catch basins by the flood.

Some of our older sewers will have to be relaid. On account of loose joints so much extra water is taken in during flood periods that the pumps can not carry off the load.

Estimated cost to relay 12″ cast iron pipe in Branch River at South Keene with 16″ cast iron pipe with necessary gates and fittings,	$2,789 30
Estimated cost to relay 8″ cast iron pipe in Branch River at Main Street with 10″ cast iron pipe with necessary gates and fittings,	1,014 66
To lay both pipe lines in concrete with labor,	4,000 00
Total,	$7,803 96
The temporary line across the South Keene Bridge cost, Most of the material can be salvaged.	$573 58
The roadway through the railroad culvert in Roxbury was washed away. Including W. P. A. Labor this was repaired at a cost of	740 06

REPORT OF PARK COMMISSIONER

To the Honorable Mayor and City Councils:

With the widespread destruction of the several hundred acres of wooded Parks in the hurricane of September 21, it may seem futile to report upon the work that was accomplished in these areas during the earlier part of the year.

However the clearing of the entire Wheelock Park area of underbrush and overhanging branches and the completion of clearing the Dinsmoor and Faulkner and Colony woods resulted in such increased use by tourists as well as residents of Keene that it seemed a worth while work at very little expense as all supervision and labor was supplied by the W. P. A. at no cost to the city.

The largest project of the year was the erection of a new bath house for women and a checking room at the Robin Hood Swimming Pool. This was constructed by W. P. A. labor, the expense of the department for materials, shower, toilets, bubbler and lights, being only a trifle over $500.00.

Appreciation of the enlarged bath house was expressed by increased attendance, the report of the swimming supervisor giving the attendance during the two months of suprvision at 17,500, the largest since the area was opened. The adjoining recreation field also saw an increased attendance participating in the various games and a start was made in organized classes among the younger children. The area about the swimming beach and field suffered less from the storm than other parks and the coming season should consequently show an increased use. Six attendants were regularly employed during the active season and the fact that this is the sixth successive season without a serious accident is a testimonial of their training and careful supervision.

Following the September storm a good start was made in clearing Wheelock Park with W. P. A. Labor but after a few days work the entire crew was taken over in fire hazard work and have been retained on this work, so that the Park Department has not been able to accomplish anything since.

It is recommended that they be returned to the work of clearing the parks as soon as possible.

Since the city has sold the desirable down timber in the parks, with no requirement for the purchaser to clear up the slash or undesirable wood, it seems apparent that most of the resources of this department for the next year at least will be required in clearing the areas if they are to be made available for public recreation again. While the beauty of Wheelock Park as a scenic spot has been destroyed for the present generation, its development as a much needed recreation field for all sorts of athletic events would undoubtedly result in a much larger use by a great number of our residents.

Respectfully submitted,
ROBERT T. KINGSBURY,
Park Commissioner.

WHITE PINE BLISTER RUST CONTROL

February 7, 1938.

Hon. William J. Callahan, Mayor,
Keene, N. H.

Dear Sir:—

As a record of public expenditures, and furthermore so that you may include a statement in the city's annual report, we are submitting the customary accounting of White Pine Blister Rust control activities conducted in Keene during 1937.

Funds expended in this project became available through a W. P. A. allotment from the Bureau of Entomology & Plant Quarantine, U. S. Department of Agriculture. Hours of work and rates of pay were fixed by the Government and employment was restricted to men certified by public relief agencies. Such labor was obtained through the U. S. Re-employment service and eligible local men given preference when available.

White Pine Blister Rust Control has proved of great value in meeting local unemployment. A definite program of work had already been formulated and a supervisory force familiar with conditions and the towns was available and thus men were quickly put to work. More than 96 per cent of the allotted funds have gone directly to the payment of wages, only a small expenditure being made for tools and other materials.

During the past few months stumpage prices of white pine have held fairly firm and with improvement of business generally, should increase.

There is attached herewith a financial statement indicating expenditures made in your city in this project during 1937.

Yours very truly,
J. H. FOSTER,
State Forester.

REPORT OF CITY PHYSICIAN

To His Honor, the Mayor, and the City Councils:

I beg to report that during the year just passed, we have not had any serious epidemic. Despite the temporary break in the sanitary system of our City, due to the flood and hurricane of last September, no undue sickness followed.

The Medical Relief work has been attended to promptly. Since the transference of a large number of City cases over to the County, last July, the amount of Relief work has been considerably curtailed.

I wish to express my appreciation to Mr. Paul Hayward for his co-operation, and to Miss Anna Savage of the Keene Visiting or District Nurse Association for their very helpful assistance.

Respectfully submitted,

W. F. TAYLOR, M. D.,
City Physician.

REPORT OF HEALTH OFFICER

To The Members of the Board of Health, Keene, N. H.:

I hereby submit a report of my work for the year ending November 30th, 1938.

The routine inspections of stores, restaurants, bakeries, barber shops and dairies have been carried out throughout the year. A great many complaints have been investigated and nuisances abated. More tests have been conducted in the laboratory during this year than in previous years. These have included standard plate counts for bacteria in milk, butter fat in milk and chocolate milk, total solids in milk, sediment tests, tests for the efficiency of pasteurization, mastitis, and tests for pH of sewage and sludge.

The sewage disposal plant has operated satisfactorily throughout the year and tests of the sludge have been made frequently in the Health Department laboratory to check on it.

The flood and hurricane in September created a great many unsanitary conditions. One hundred and sixteen cases of filth, debris and dead animals were reported to me by the Red Cross survey taken after the flood. These and a great many others reported by citizens were investigated and cleaned up. Three hundred and seventy two cans of chloride of lime and several gallons of liquid antiseptic were distributed to be used to clean and disinfect houses and cellars.

There have been reported during the year December 1st, 1937 to Novmber 30th, 1938 the following number of cases of contagious diseases.

Chicken pox,	4
German measles,	5
Gonorrhoea,	15
Measles,	19
Mumps,	1
Scarlet fever,	24
Syphilis,	8
Tuberculosis,	6
Typhoid fever,	4
Undulant fever,	2
Whooping cough,	19

Following is a summary of some of the work done during the past year.

Inspections:—	
Bakeries,	11
Barber shops,	61
Bottling works,	8
Children's homes (for State Board of Charities),	4
Circus and carnival concessions where food is sold,	8
Dairies,	245
Restaurants, lunch carts, hotel kitchens,	141
Stores where food and/or milk is sold,	204
Complaints investigated,	331
Nuisances abated,	144

Other tests,	42

Respectfully submitted,

EVAN C. WHITE,
Health Officer.

REPORT OF CITY ENGINEER AND BUILDING INSPECTOR

To His Honor the Mayor and Board of Aldermen:

My report for the year of 1938 is herewith presented.

Engineering work has been done this year as usual for the city departments, street lines given, grades set for drains and catch basins, surveys made and plans drawn for concrete sidewalks, lines run for park and cemetery work and street lines and grades have been given where building work was in progress.

The September hurricane caused considerable extra work.

Office work is now quite an item, the Federal Government requires more engineering and building information each year and private firms also make many inquiries regarding conditions and city laws, these must be answered by mail.

Permits to the number of 248 have been issued for building construction this year as follows:

Single houses,	14
Double or apartment houses,	3
Additions and alterations, houses,	77
Office building remodeled,	2
Stores and shops,	2
Stores and shops, additions and repairs,	15
Filling stations,	1
Garages, one car,	11
Garages, more than one car,	17
Garages, additions and repairs,	7
Barns, and additions to barns,	5
Sheds, poultry houses, etc.,	12
Cabins and small buildings,	5
Greenhouse,	1
Sawmill,	1
Buildings moved,	9
Portions of buildings removed,	2

Not included in the above list are 64 permits issued for the repair of buildings damaged by the hurricane of September 21st. Of these permits, 15 are for shops or factories with side walls or roofs torn off, 3 were given for the repair of churches, 8 for garages to be rebuilt and many of the remainder were for homes damaged by falling trees, the cost of repairs in some cases exceeded $1,000 on homes and $5,000 on factories. Many repairs thus far are temporary and permits will be issued later for completion of the work.

The hurricane damaged 1,336 houses more or less seriously in the built up section of the city, the approximate loss being $156,468. This sum included repairs on three churches and city owned buildings. The actual cost of repairs on business and industrial buildings was probably somewhat less.

No attempt was made to estimate losses on farm buildings, but in some cases the damage was severe.

New house numbers assigned this year,	21

Respectfully submitted,

RALPH H. CLARK,
City Engineer and Building Inspector.

REPORT OF INSPECTOR OF PLUMBING

To His Honor the Mayor and Members of the City Councils:

I hereby submit my report as Plumbing Inspector for the year ending December 1st, 1938. I have contacted all persons doing plumbing and have found all parties conforming strictly to the rules required.

I have personally inspected and tested all new installations, additions and alterations made in the city.

Listed below is a record of work done during the year 1938.

Permits issued,	158
Water tests made,	79
Nature of Plumbing Installed:	
Plumbing installed in new buildings,	48
New work on old buildings,	39
Alterations and additions,	98
Fixtures Installed:	
Closets,	147
Sinks,	118
Bowls,	103
Baths,	78
Trays,	9
Urinals,	2
Washing machines,	3
Plumbers licenses issued,	1

Respectfully submitted,

REPORT OF TRUSTEES OF KEENE PUBLIC LIBRARY

To His Honor the Mayor and Gentlemen of the City Councils:

The Library suffered considerable damage to its building and grounds in the September storm. The Administration Committee has completed the repairs to the roof and the exterior of the building from a reserve in the maintenance account which was being held for much needed alterations in the basement. The balance has been voted and will be used for this purpose.

The Trustees are pleased to report that, during the emergency as well as through the year, the untiring efforts and competence of Miss Saxton and the ready cooperation of the staff have met the problems and demands with great satisfaction.

Miss Virginia Hall was engaged in February as library assistant to fill a vacancy on the staff.

The Library's extension work continues to fill a very real need, and it has met with gratifying response. To many children who would otherwise be deprived of library privileges, the service to the schools is of particular value.

The usefulness of the Library to the public has been greatly impaired by the continued reduction in funds for the purchase of new books. It is hoped that the appropriation will soon be restored to its former amount.

You are referred to the appended report of the Librarian for the activities of the Library, statistics and details of the work.

RUTH P. HUNTRESS,
Secretary.

REPORT OF LIBRARIAN

To the Trustees of the Keene Public Library:

Following is the report for the year 1937-1938:

In a recent report, your attention was called to the differences between a library of a few years ago and the present in the demands made upon it by newer standards and methods of education and the reading interests of its patrons. "Today, the library is an eagerly-used university in which thousands of persons take courses of their choosing." Over two hundred million more books were read from American public libraries than twelve years ago, and the variety and quality has changed with the numbers.

All this indicates, that, as an address made not long ago in the state said, "The library should be as powerful a basic institution in a state as the church, the school, the town hall. As citizens, as voters we have lacked the faith, the understanding, the will to go ahead. Now is the time to insist that the quiet work of the library for human betterment must go on." While this appeal was directed especially toward improving state-wide work, it has an equally strong application to individual libraries and to us in Keene. We need increased facilities which greater resources could give us.

We have carried on as extension work and special activities the two school deposits, two church deposits, a Parent-Teacher deposit, the hospital service, vacation reading club and children's party, story-hours and the celebration of Book Week with exhibits of books arranged for all ages, and special showing of material for parents and teachers. There has been a small increase in circulation, but the requests for new books have been more numerous than we could supply.

On the afternoon of the day following the hurricane, the library was open in spite of tree-trunks and branches blocking the front walks, but for two weeks, it was necessary to close at five o'clock for lack of lights.

The librarian and assistants and two Trustees have attended New England, state and district library meetings. The statistics below summarize the year's work.

Respectfully submitted,
MARY LUCINA SAXTON, Librarian.

REPORT OF CITY SOLICITOR

To his honor the Mayor and members of the City Councils:

Your City Solicitor reports activities for the fiscal year ending November 30, 1938 as follows:

At the beginning of the year the City of Keene was involved in the following suits:

Kingsbury Machine & Tool Corporation vs. City of Keene.
Faulkner & Colony Manufacturing Company vs. City of Keene.
Keene Silk Fibre Mills vs. City of Keene.
Kate C. Dort vs. City of Keene.
J. H. Ferguson & Company vs. City of Keene.
Herman Claywood vs. City of Keene.

The suits of the Kingsbury Machine & Tool Corporation and the Faulkner & Colony Manufacturing Company against the City of Keene were brought for the abatement of taxes. No effort has been made by counsel for the petitioners to dispose of them, and they are still pending.

The action of the Keene Silk Fibre Mills vs. the City of Keene, which was brought for the abatement of taxes, has been dismissed by agreement of the parties.

As to the action of Kate C. Dort vs. the City of Keene, this action was brought to collect damages caused by water running into the cellar of the house of the plaintiff at 25 Elm Street. It is alleged by the plaintiff that certain acts of the City have caused his water to run into this cellar. This case has been pending for some time and should be disposed of during 1939.

In the matter of the suit of the J. H. Ferguson & Company vs. the City of Keene, the plaintiff sought to recover damages alleged to have been caused him by the City's failure to force the Central Engineering & Construction Company to complete their part of the work on time, thereby delaying the plaintiff. In the Superior Court the jury awarded a verdict of $2,000 to the J. H. Ferguson & Company. The case was transferred to the Supreme Court and argued at the May term, 1938. The Supreme Court decided in favor of the City. I was assisted in the trial of this suit by John R. Goodnow, Esquire, former City Solicitor.

The suit of Herman Claywood vs. the City of Keene is an action to recover damages which the plaintiff alleges were caused to his property by the construction of June Street and failing to install adequate drains. This case has been pending for some time and should be disposed of within the coming year.

The following action brought by the City of Keene was pending at the beginning of the year.

City of Keene vs. Ida Tatelman, et als.

This suit was brought several years ago in an effort to secure an injunction against the use of the premises on Winchester Street as an automobile graveyard. I have attempted several times to dispose of this matter, and at the February Term, 1938 the presiding justice ordered the defendants to clean up this "graveyard" not later than October 15, 1938. While the defendants have made an effort to remove large quantities of junk there still remains much work to be done. I attempted at the September Term, 1938 to have the defendants ruled in contempt for their failure to clean up the property, but my request was refused and the matter was continued to the February Term, 1939, at which time I hope to be able to dispose of this matter.

The following actions are new actions brought during the present year against the City of Keene.

Faulkner & Colony Manufacturing Company vs. City of Keene.
Golding Keene Company, et als vs. City of Keene.
Central Engineering & Construction Co. vs. City of Keene.
James E. Brady vs. City of Keene.

The actions of the Faulkner & Colony Manufacturing Company and the Golding Keene Company, et als were brought for the abatement of the 1937 taxes. No effort has been made by counsed for the petitioners in these cases to dispose of them, and they are still pending.

In the suit of the Central Engineering & Construction Company vs the City of Keene, this is an action brought to recover money due the plaintiff and held by the City. It did not seem advisable to pay this money prior to the termination of the J. H. Ferguson & Company's suit. The Ferguson case now having been disposed of, the City paid the plaintiff $908.00, which was the full amount of the claim with interest.

In January 1937, James E. Brady filed a petition in the Superior Court to compel the City to permit the erection of a gasoline filling station at 186 Main Street. This case was heard at the February Term and I was assisted by the firm of Faulkner & Bell. At the conclusion of the plaintiff's case the City's motion to dismiss was granted. To this order the plaintiff accepted and the case was transferred to the Supreme Court. Both the plaintiff and your solicitor filed briefs for the December Term of the Supreme Court and in a short time the decision of the Supreme Court is expected.

All criminal cases falling within the jurisdiction of the City Solicitor were prosecuted in the Keene Municipal Court. The City Solicitor has also advised the officers of the City and members of the City Government as to the law in various matters, and has drawn all the necessary deeds, agreements and other instruments requested.

Rspectfully submitted,
WALKER S. KIMBALL,
City Solicitor.

December 8, 1938.

Don J. Williams,
Clerk of Municipal Court,
Keene, N. H.

Dear Don:

I have this day appointed Harold F. Drew of Keene, Probation Officer for the Municipal Court of Keene. I have fixed his salary at Five Hundred ($500.00) Dollars a year. You will kindly notify the City Clerk of this fact.

Yours very truly,
CHARLES A. MADDEN,
Judge of the Municipal Court of Keene.

REPORT OF SUPERINTENDENT OF CEMETERIES

To His Honor the Mayor and Gentlemen of the City Councils:

I submit the report of the Cemetery department for the year ending November 30, 1938.

We have had during the year 102 adult and 5 infant burials.

We have laid out 18 new lots on what was originally the north end of Greenlawn Cemetery.

Our former Mayor, Mr. W. J. Callahan, seemed anxious to have depressions on old lots which have no care filled and we asked for $400.00 to cover the expense of same and during the summer we have kept three men most of the time on this work and also filling depressions and regrading fund lots.

Because of the wet season there has been more work with the lawn mower than usual; we have had to mow every week through the summer.

We had hoped to take loam from the meadow land to use in our grading, while we have taken a great many loads much of the time it has been too wet to get in with the truck.

The cost of cleaning up this meadow land is possibly $300.00 to $400.00 per year and while this would seem to many an unnecessary expense it has seemed to your superintendent money well spent in the looks of the Cemetery as a whole.

At the time of the September Hurricane many trees were uprooted and considerable damage done to the monuments and markers.

The trees that were blown down have been removed and the stumps pulled up and lots temporarily repaired; much remains to be done in the way of grading and seeding.

We have sold 11 lots at $100.00 each, 3 at $50.00, 2 at $45.00, 2 at $40.00, 3 at $30.00, 1 single grave at $15.00 and 1 at $7.00.

At the present time we are caring for 215 lots annual care and 608 lots perpetual care.

The collections for the year have ben $3,591.83.

Bills receivable $1,550.00.

Respectfully submitted,
F. C. POTTER,
Superintendent.

REPORT OF COMMITTEE ON PUBLIC PLAYGROUNDS

To His Honor the Mayor and Gentlemen of the City Council:

The City Playground committee hereby submits its report for the year 1938.

This year has been a very trying one due to bad weather conditions, but due to the patience and interest of the Directress Miss Ann Faulkner and her very capable assistants we consider the year a very successful one.

One bad condition was corrected, the overloading of the busses, causing an increase in the cost of running same. We greatly appreciate the willingness of your Honorable Body in agreeing to any added expense to correct this. We were prepared to make many suggestions for the improvement of buildings and grounds, but due to what has happened recently, the so called hurricane we thought best to hold them for a future date.

We take this opportunity to thank everyone, both the city officials and the public who in any way have helped the committee and the children.

Respectfully submitted,

FREDERICK D. MITCHELL, Chairman,
MRS. F. B. HAWLEY,
MR. ORRIN R. STEARNS.

REPORT OF WHEELOCK PARK PLAYGROUND
FOR THE SEASON OF 1938

To Frederick D. Mitchell, Chairman of the Playground Committee:—

The purpose of the Wheelock Park Playground is to offer the children of the City of Keene an opportunity for safe, wholesome play under conditions which are beneficial to their physical and mental development.

The average attendance this season was 160. Because of so much rainy weather the Playground was closed an unusual number of days. This loss of days greatly handicapped the carrying out of our program and our efforts to maintain the enthusiasm and interest of the children.

Our general program was as follows:—

9:00-10:00	Organized game period.
10:00-10:10	Flag raising.
10:10-11:30	Play on apparatus.
	Organized Softball.
	Supervised play in the wading pool.
	Art Club.
	Folk Dancing.
	Tumbling Club.
	Nature Club.
11:30-12:30	Lunch Period.
12:30-1:30	Music.
	Story Telling.
1:30-2:30	First Aid Club.
	Nature walks.

The duties of the instructors of the playground were as follows:

Miss Lewis—Group games, Children under 8. Art Club. Music.
Miss Beedle—Group games, Girls between 8 and 10. Music.
Miss Braley—Group games, Girls over 10. Nature walks.
Miss Brown—Group games, Girls between 8 and 10. Wading pool.
Miss Dean—Group games, Children over 8. Tumbling Club.
Miss Nano—Group games, Boys between 8 and 10. Nature Club.
Miss Sebastian—Group games, Boys between 8 and 10. Folk Dancing.
Mr. Vogel—Older boys' activities. Softball, baseball, horseshoes.

Miss Sophie Nano gave beginners' swimming lessons at Robin Hood Pool each afternoon.

Special Days:

Park Fair.

Costume Parade.

Junior Olympics with Robin Hood Park Playground.

The children also enjoyed treasure hunts, a musical program, and a play. The softball team played against the Robin Hood team, the Peterboro Playground team and the Bellows Falls Playground team.

The Adolf W. Pressler Cup awarded annually by the American Legion was presented to Norman Grandin for being the child who in the opinion of the instructors best exemplified the playground spirit which Mr. Pressler sought to develop in the children.

All necessary records for the playground were kept. There were no serious accidents during the season.

The instructors wish to thank Mr. Mitchell and the Playground Committee for their valuable help and advise. We also express our appreciation to those citizens of Keene who helped us in any way. We realize that the interest of the citizens of the City of Keene is essential for a successful playground.

Respectfully submitted,

ANN FAULKNER,
Directress.

REPORT OF WELFARE DEPARTMENT

To His Honor the Mayor and Gentlemen of the City Councils:

I hereby submit the report of the Welfare Department for the year ending December 1st, 1938.

During the past year the Welfare Department has been operated according to the provisions of Chapter 202 of the Laws of 1937 which provided for a 20% reimbursement for direct aid until June 30th, 1938, or until the State Appropriation of $600,000 was exhausted. The City received the 20% reimbursement until April 30th, 1938 when owing to the shortage of State funds the reimbursement was reduced to 15% which was received for the month of May. Since June 1st, 1938 the City has had to bear the entire cost of all direct aid. For the cost of Old Age Assistance the City pays but 25%, the State 25% and the Federal Government 50%.

The cost of Direct Relief for the past year has been greater than in 1937 owing to the decreased percentage of reimbursement from the State.

Listed below is a record of the expenditures for Direct Aid and Old Age Assistance, also a record of all refunds and reimbursements for the past year.

Keene, N. H., November 30, 1938.

REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT

To His Honor the Mayor and Board of Aldermen,

I hereby submit my report for the year ending November 30, 1938.

There were 17 bell alarms, 360 still alarms, making a total of 377 alarms. 14 of these calls were out of town.

The estimated value of buildings damaged by fire,	$251,700 00
Damage to buildings,	8,420 95
Insurance on said buildings,	205,800 00
Insurance paid,	8,420 95
Value of contents of buildings,	100,000 00
Damage to contents,	3,049 56
Insurance on said contents,	71,600 00
Insurance paid,	3,049 56

The number of alarms the department has answered for the year is four less than that of last year.

The fire loss for the year will be only about one-third that of last year, as there has been no large fires during the year, or any damage of water from sprinkler systems.

The inspection of buildings has been carried out during the year in monthly inspections, with the exception of October, with very good results with a few exceptions.

The Motor Fire Apparatus is in very good condition.

Engine No. 1 has had the four tires renewed also Combination No. 2 has had the two rear tires replaced.

Engine No. 3 has been touched up and given a coat of varnish, this makes its finish in very good shape.

Combination No. 1 has been remodeled and made into an emergency or Squad truck. It carries first aid supplies, gas masks, inhalator, Salvage covers, flood lighting outfit and invincible nozzle.

The department has purchased a portable flood lighting plant which consists of a 1250 Watt Engine and Generator and three portable lights, two of these are 500 Watts each, and one a 250 Watt Spot light, three 50-foot extension cables, and a distributing board, this makes a very valuable unit for lighting up at fires and all other emergencies.

The department has also purchased and installed at the junction of Vernon and Washington Streets a Beacon Signal light, this is a three way light, the Green faces Vernon Street for clearance of cars that might be on that end of Vernon Street, and the two red lights facing up and down Washington Street which holds traffic either way. This makes a big improvement in safety of traffic in answering an alarm.

The department has on hand 10,250 feet of 2½ inch double jacket rubber lined hose and 1,950 feet of 1½ inch single jacket hose, also 1,200 feet of linen unlined hose at South Keene in hose house.

There has been 300 feet of unserviceable hose turned over to the Water Department.

The Fire alarm, its circuits and its equipment is in very good condition. The hurricane of September 21st wrecked the alarm circuits, it requiring about eight miles of wire to replace that which was broken up so much that it could not be used over again. The total amount of wire in the alarm system is about twenty-seven miles.

The Highway department's portable air compressor was loaned to supply air to the fire whistle, and Larry Pickett loaned his sound truck outfit so we could charge the storage battery until the Public Service Company restored its electric service.

The two boxes purchased this year for replacement are Box 26, Spring Street corner Brook, and Box 37, Mechanic Street cor. Pleasant.

The Board of Engineers recommend the purchase of 1,000 feet of fire hose, also the two fire alarm boxes for replacement, and also the apparatus rooms be repainted, as these rooms have not been painted for eleven years.

To His Honor the Mayor, Members of the City Government, Joint Standing Committee on Fire Department, officers and members of fire department, and to the Police Department, I extend my sincere thanks and appreciation for the good support and co-operation rendered me during the year.

Respectfully submitted,

EUGENE B. RILEY,
Chief Fire Department.

REPORT OF CITY AUDITOR

To His Honor the Mayor and Members of the City Councils:

I have examined the books, notes, deposit books and other securities belonging to the City in the hands of the City Treasurer and the trustees of trust funds and find the same correctly set forth in the proper schedules to be printed in the annual report.

I have examined the books and vouchers of the several officers and find that collections and deposits for the year ending November 30, 1938 agree with the recapitulation of receipts and expenditures reported by the finance committee.

I have examined, verified and allowed all claims paid by the City during the fiscal year amounting to $1,012,271.66 and the disbursements as reported by the City Clerk agree with the entries made in the Auditors book.

Respectfully submitted,

WALTER M. HUBBARD,
Auditor.

December 15, 1938.

VITAL STATISTICS

VITAL STATISTICS

To His Honor the Mayor and Gentlemen of the City Councils:

In compliance with an act of legislature, passed June session, 1887, amended by the legislature of 1889, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publication in the annual report," I herewith submit the following:

FRANK H. WHITCOMB,
City Clerk.
